

Thermo Scientific Synchronis Phenyl HPLC Columns

Consistent, predictable separations,
Column after column, time after time

- Outstanding reproducibility
- Highly pure, high surface area silica
- Alternative selectivity to C18
- Double endcapped for extra surface coverage
- Highly inert towards basic compounds
- Rigorously tested to ensure quality

Specifications

Particle size	1.7 μm , 5 μm	Carbon load	11 %
Pore size	100 \AA	Endcapped	Yes
Surface area	320 m^2/g	USP classification	L11
pH range	2 - 8		

Alternative selectivity reversed phase columns

Synchronis™ Phenyl HPLC columns exhibit alternative selectivity to C18 and C8 alkyl chain columns, particularly for aromatic and moderately polar analytes.

The phenyl group also provides the stationary phase with a moderate degree of hydrophobicity, making it ideal for the separation of analyte mixtures with varying polarity and aromaticity.

Application: Oxacillin Sodium (USP)

Column: Synchronis Phenyl, 5 μm , 300mm x 4.0mm

Mobile phase:	Phosphate Buffer: MeCN:MeOH (70:30:10)
Flow rate:	1.0 mL/min (2 mL/min in USP method)
Temperature:	25°C
Detection:	225 nm
Injection volume:	10 μL

1. Oxacillin Sodium (0.11mg/mL)

Parameter	USP Specification	Measured (6 replicate injections)
Efficiency (N)	> 2000	7904
Tailing factor	< 1.6	1.42
%RSD Retention time	< 2%	0.03%
%RSD Peak area	< 2%	0.29%

Consistent, predictable separations, Column after column, time after time

Synchronis HPLC columns are manufactured, packed and tested in ISO9000 accredited facilities. Each lot of silica is tested for the physical properties of the silica support and only released for production if it meets the stringent test specifications.

Each bonded lot of chromatographic packing material is rigorously tested for primary and secondary interactions with the bonded phase.

New, enhanced, automated packing methods drive consistency even further and every column is individually tested to ensure that it meets the required quality.

These extensive testing and quality control procedures ensure the delivery of a consistent product, column after column.
